

Mike Saul Declaration

I have been an RS agent for far too many years now, enjoying sailing many of the classes at home and abroad, often offering regatta support. I became involved with the supply of Elite sails a couple of years ago and this year has seen me appearing on the boats when slots are available. What a cracking boat, I was immediately taken with experience and keen to do more. I appreciate that the class maybe hasn't had the best support and believe that I can rectify that situation with a more hands on approach. The boats are reliable and with the right support through readily available spares should be more attractive to new owners. My work takes me up and down the country on a regular basis with Southampton, Hayling and West Mersea often on my route. I believe I can work with the Elite committee to provide a more supportive service that will only enhance Elite ownership.
